Dear Mr. Pasculli:

As per our telephone conversation of November 27, 1985,
I have enclosed a copy of the May 6, 1985 memorandum
entitled "Procedures for Planning and Implementing Off-site
Response Actions," (Off-Site Policy). I apologize that you
did not receive it when I sent it to you last month.

In addition, as I explained during our conversation, I do not
have any written approval from Region V regarding Wayne Disposal's
compliance with the Off-site Policy. The facility's double-lined
cell was verbally approved for acceptance of wastes from SCP Newark
by Bill Muno, Chief, RCRA Enforcement Section, EPA Region V, on
September 3, 1985.

Sincerely yours,

Janet C. Feldstein, Environmental Engineer
Site Investigation and Compliance Branch
